CHAPTER 2
PROGRAMME STRUCTURE AND CREDIT SYSTEM

2.1 PROGRAMME OF STUDY

A Programme of Study is an approved curriculum, which leads to an award upon successful completion.

A Programme of Study (e.g. BSc (Hons) Mathematics or BEng (Hons) Civil Engineering) is normally made up of a specified number of modules, which are drawn from one discipline or field of study or more and which often combine core modules with a range of electives from which students can choose.

Almost all Programmes of Study at the University are structured on the credit system. A credit system is a systematic way of describing an educational programme by attaching credits to each of its components. A credit is a unit of measure, and each module normally carries a certain number of credits.

Note that some Programmes of Study (e.g. Doctor of Medicine) are non-credit based. For these programmes, students are strongly advised to refer to the specific regulations as detailed in their programme structure.

2.2 MODULES

A module refers to any discrete and relatively self-contained course unit for curriculum option, each of which is likely to be characterised by a particular content and structure, specific methods of delivery (a combination of lectures, tutorials, practicals and independent learning, or a set of learning-teaching materials) and a particular approach to assessment. It is a subset of a Programme of Study.

Each module can either be taught in one semester (semester module) or throughout two semesters (yearly module).

Each module has a unique code of 4 digits (#1#2#3#4), 5 digits (#1#2#3#4#5 or #1#2#3#4#5(#6)), or 6 digits (#1#2#3#4#5#6(#7)) representing normally the following:

#1: Year (y), where 1 ≤ y ≤ 5, for undergraduate Programmes. For postgraduate Programmes, #1 = 6 or 5 (for some postgraduate modules).

#2: Semester (s), where 1 ≤ s ≤ 2; s = 0 if module is on offer during both semesters. Some modules may carry digit 3 or 4 corresponding to third or fourth semester.

#3 #4: Module number (01 – 99); #3 #4 #5: Module number (100 – 999).

(#6): Weighting (w), where w = 1, 3 or 5 depending on the module status (Introductory, Intermediate or Advanced). It gives an indication of the notional degree of difficulty or academic attainment expected by the student.

For example, the module CIVE 1116(1) is normally offered in year 1 semester 1, and carries a weighting of 1.

However, all modules offered at postgraduate level have the same weighting (w = 1).
Some modules are denoted by suffix Y after the fourth or fifth digit in the module code, e.g. CHEM 1011Y(1). These modules, termed yearly modules, are taught over a period of two semesters and are examined at the end of the second semester only. There are however continuous assessments over the period of two semesters.

Some module codes have an ‘R’ at the end and denote modules which contain a strong research component.

Module codes having an ‘l’ at the end (e.g. DFA 1200l) denote modules delivered by mixed mode and having ten hours face-to-face interaction with a tutor for each UoM credit. Thus a student will have thirty hours face-to-face interaction with a tutor for a module carrying three UoM credits.

Each module consists of a specified number of contact hours comprising lectures, tutorials, laboratory/ field work, etc. Students are, however, expected to put in additional work through personal study, library work, etc.

2.3 CREDIT SYSTEM

As from the academic year 2019-2020, two different credit systems will be operational at the University: UoM credit system and the Learner Centred Credit System (LCCS). Ongoing students proceeding to higher level or year of their programmes of study shall abide with regulations governing the UoM credit system whereas regulations governing the LCCS shall be applicable for level or year 1 students, unless stated otherwise in the programmes of study.

Equivalence between UoM credits and LCCS credits:

1 UoM credit = 2 LCCS credits

2.4 LEARNER CENTRED CREDIT SYSTEM (LCCS)

The UoM has embarked on the LCCS which is based on the ECTS (European Credit Transfer System) to replace the UoM credit system which has been in place for nearly two decades. It proposes to inspire itself by the European Credit Transfer System as a modern and dynamic learning system for the future generations of learners. The LCCS takes into account learning outcomes which have become important in the recognition of skills acquired during learning and which are equally important for employability.

LCCS credits are based on the workload students need in order to achieve expected learning outcomes, i.e. the time typically needed to complete all learning activities such as lectures, seminars, projects, practical work, self-study and examinations (notional learning hours). 1 LCCS credit = 30 notional learning hours.

Thus a semester module bearing 6 LCCS credits shall be taught over 10 weeks and shall normally include 3 hours of contact, 6 hours of self-study and 9 hours of other learning activities per week.

The hours of contact shall include class hours, tutorials and practicals. It is noteworthy that the contact hours for practicals may be increased due to the nature of the programmes or accreditation requirements.
Tutorials will normally be organised for a group comprising a maximum of 25 students, and can be split into more groups as the number exceeds 25. The minimum and maximum number of tutorial hours allowed for a module bearing 6 LCCS credits shall be 4 and 10 respectively.

Self-study is meant exclusively for the notion of studying what has been delivered in class and holds a ratio of 2:1 in the allocation of learning hours i.e. 2 h of self-study are equal to 1 hour of lecture or contact time. Furthermore, Self-Study should not be confused with Self-Study Module as clearly defined in Section 2.9.

The other learning activities may comprise of the following:

- Working on assignments;
- Directed Learning
- Sitting for Class Tests and preparation time for same;
- Sitting for Examinations and preparation time for same;
- Group work;
- Attending Workshops/Conferences recommended by the Department/Faculty;
- Fieldwork;
- Site Visits/Trips;
- Additional Practicals;
- Presentations among peers;
- Experiential Learning;
- Placements/Internships;
- Guest lectures.

More information on the LCCS is available on the following webpage:
http://www.uom.ac.mu/index.php/centres-offices/quality-assurance

2.5 ACADEMIC YEAR

The academic year of the University is divided into 2 semesters. Each semester will consist of 15 teaching weeks’ duration under the UoM Credit System and 10 teaching weeks’ duration under the LCCS System, unless otherwise specified in the programme of study.

2.6 CREDIT EQUIVALENCE

(i) 15 h of lectures and/or tutorials/ seminars: 1 UoM credit
(ii) 30 – 45 h of laboratory/ field work: 1 UoM credit
(iii) 30 notional learning hours (5 contact hours, 10 hours self-study and 15 other learning activities hours): 1 LCCS credit
(iv) Undergraduate Certificate project: up to 3 UoM credits or 6 LCCS credits
(v) Undergraduate Diploma project: 3 – 6 UoM credits or 6 – 12 LCCS credits
(vi) Undergraduate 3-3½ final year project: 6 – 10 UoM credits or 12 – 20 LCCS credits
(vii) Undergraduate 4 year final year project and Master’s project: 6 – 12 UoM credits or 12 – 24 LCCS credits

Normally a three-UoM credit module is equivalent to 45 contact hours. “Contact hours” is defined as the amount of direct contact time between the student and the lecturers, adjusted for laboratory/field work according to the above. On the other hand, a six-LCCS credit module is equivalent to 180 notional learning hours (30 hours contact, 60 hours self-study and 90 hours of other learning activities).

2.7 NUMBER OF CREDITS AND CONTACT HOURS FOR UNIVERSITY OF MAURITIUS AWARDS

<table>
<thead>
<tr>
<th>Programme of Study</th>
<th>UoM Credit System</th>
<th>Learner Centred Credit System (LCCS)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Number of UoM credits</td>
<td>Number of contact hours</td>
</tr>
<tr>
<td>3-3½ year Undergraduate Degree</td>
<td>96 – 111</td>
<td>1440 – 1665</td>
</tr>
<tr>
<td>4-year Undergraduate Degree</td>
<td>120 – 130</td>
<td>1800 – 1950</td>
</tr>
<tr>
<td>Undergraduate Diploma</td>
<td>60 – 70</td>
<td>900 – 1050</td>
</tr>
<tr>
<td>Undergraduate Certificate</td>

<td>450 – 600</td>
</tr>
<tr>
<td>Master’s Award</td>
<td>36 – 42</td>
<td>540 – 630</td>
</tr>
</tbody>
</table>

Note that the number of UoM credits or LCCS credits and contact hours for some Programmes may differ from those indicated due to the nature of the Programmes (e.g. MBA) and/or exigencies of professional/ accrediting bodies (e.g. BEng (Hons) Civil Engineering).

2.8 DURATION OF PROGRAMMES OF STUDY

In general the duration of a Programme of Study is as follows:

<table>
<thead>
<tr>
<th>Programme of Study</th>
<th>Normal</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Full-Time</td>
<td>Part-Time</td>
</tr>
<tr>
<td>Undergraduate Certificate</td>
<td>1 year</td>

<td>Master’s degree</td>
<td>1 – 1½ years</td>
<td>2 years</td>
</tr>
<tr>
<td>Flexible</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2.9 TYPES OF MODULES

Modules can be of different types as shown:

<table>
<thead>
<tr>
<th>Module Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Core</td>
<td>Module that is essential in a particular Programme and must be passed by the student on the Programme.</td>
</tr>
<tr>
<td>Elective/ Optional</td>
<td>Module for which the student has a choice to register. In case of failure, the student can either retake/ resit the module or register for another elective/ optional module that is on offer unless otherwise stated.</td>
</tr>
<tr>
<td>Self-Study</td>
<td>A module can be offered on self-study mode only when it has been phased out, no alternative and/or equivalent module will be run and the student has not previously registered for the module or attended the classes. Under the above circumstances, a student may be allowed to complete a maximum of 12 UoM credits or 24 LCCS credits for an Undergraduate Programme and a maximum of 6 UoM credits or 12 LCCS credits for a Postgraduate Programme by Self-Study. There will be no formal lectures but laboratory work will be conducted, if necessary. Assessment will be based on laboratory work and/or assignments as well as tests and examinations. Self-study modules will be supervised (to read in conjunction with section 3.9).</td>
</tr>
<tr>
<td>Independent Study</td>
<td>One elective in the form of project may be offered to students who have already earned at least 75 UoM credits or 150 LCCS credits for Undergraduate Programmes and 27 UoM credits or 54 LCCS credits for Postgraduate Programmes subject to recommendation by Department and approval by Faculty/ Centre Board. This elective will carry 3 UoM credits or 6 LCCS credits and may be completed in a maximum of 2 semesters. Grade S will be awarded for satisfactory completion of Independent Study.</td>
</tr>
<tr>
<td>Audit</td>
<td>Students who wish to follow specific module(s) or are advised to do so by a Department/ Centre may audit same (i.e. such modules are not examinable for them). However, such modules do not carry any UoM credit or LCCS credit nor any grade but would appear in their transcript subject to satisfactory attendance.</td>
</tr>
</tbody>
</table>
Given resource constraints and critical mass consideration, the University does not bind itself to offer any specific elective in any Semester/Year.

2.10 MODE OF DELIVERY

A range of modalities (face-to-face lectures, mixed mode/blended/distance/on-line education, seminars, workshops, study visits, practicals, use of ICT and other modern technology) is utilised to maintain and enhance the effective delivery of modules.

Most modules are delivered on a face-to-face basis. However, some modules are delivered by mixed mode (distance education or on-line education). These are indicated by letters D.E. O.E. and D.E.O.L. respectively in the Programme structures.

2.11 INDUSTRIAL PLACEMENT/ PRACTICAL TRAINING/ PRACTICUM/ CLINICAL PLACEMENT/ PROFESSIONAL PLACEMENT

Compulsory Industrial Placement/PRACTICAL TRAINING/Practicum/CLINICAL PLACEMENT/PROFESSIONAL PLACEMENT modules are included in several Programmes of Study offered by Faculties/Centre. The duration and assessment of these modules are detailed in their respective programme structures/module specification sheet/placement guidelines.

2.11 EQUIVALENCE OF UoM AND LCCS CREDITS TO ECTS, UK AND US CREDITS

The equivalence below serves as a guide for students and staff to calculate UoM credits earned through international study.

1 UoM credit = 2 LCCS credits = 1 US credit = 4 UK credits = 2 ECTS credits

Updated on 12.08.19
