Short Course REVIT MEP

Professional Design and Modelling Course

16 - 20 December 2024

Time: 13 00 – 16 00

Duration: 15 Hours

**REGISTER
NOW** 

Certificate of attendance
will be awarded by the
University of Mauritius

Deadline for registration:
09 December 2024

❖ Course Summary

This short course is designed to empower the participants with the skills and knowledge to design and model high quality and accurate Mechanical, Electrical and Plumbing (MEP) system using Autodesk Revit software.

The objectives of the course are:

1. Be familiar with the fundamentals of Revit MEP, including its core features and interface
2. Create Mechanical, Electrical, and Plumbing systems using Revit MEP's specialized tools
3. Coordinate MEP systems with architectural and structural elements to avoid any design interference
