The course aims to develop the competencies of participants on the provisions of the ISO9001:2015 standard and allow them to proceed with the implementation of the standard within their organization with a view to achieving international recognition and enhanced customer satisfaction

The objectives are to:

- Understand quality management definitions, concepts, and guidelines
- Interpret key concepts and requirements of ISO 9001:2015 from an implementation perspective.
- Build an efficient and effective quality management system
- Learn best practice processes to implement each clause of ISO 9001:2015
- Prepare for an audit
- Plan for ISO9001:2015 registration
