WE'RE HIRING!

Metasign Co. Ltd was set up in May 2015 with only 4 permanent employees but during the eight years of hard work, we have acquired a lot of experience and have strengthened our team with professionals in both civil & metal work. We are, as of now, a team of more than 50 persons in the civil department and around 40 persons in the metal department. We also work in collaboration with sub-contractors to help us complete our project in a timely manner and with a high-quality finish product. We're currently seeking fresh graduates to work as project engineer to join our team. The ideal candidate will be highly trained in engineering. The project engineers will ultimately be responsible for maintaining our standards of excellence and delivering projects with the utmost attention to safety and quality.

Objectives of this role

- Maximize project efficiency and profitability
- Determine project specifications and acquire the necessary materials for completion
- Develop scope and parameters for project design and implementation
- Identify project responsibilities, delegating phases and elements to the appropriate personnel
- Develop and control the full project-plan lifecycle

Responsibilities

- Assist the management in establishing project objectives, procedures, data collection methods, and performance standards within parameters of corporate policy
- Prepare scheduled or necessary updates of metal or construction activities and determine personnel and equipment requirements
- Create and administer testing protocols for monitoring project performance
- Inform supervisors and subcontractors promptly of any schedule changes, and work closely with all stakeholders to ensure requirements are met
- Oversee budgetary, scheduling, and project databases, and report regularly to project manager on progress as well as on problems that could significantly affect cost or schedule
- Manage compliance with standards and specifications for quality control and assurance
- Any other cognitive duties

Required skills and qualifications

- Bachelor's degree in engineering or related field

Why choose us?

- Learn while working
- Good remuneration
- Performance bonuses
- Job security
- Professional Growth

All applicants must send their CV to hr@metasign.mu or call us on 5 259-3356
