

## Job Opportunity: (Trainee) Civil Engineer

*Inspired by our passion and driven by our commitment, we, at Zambezi Group, operate in several key industries including agritech, renewable energy, construction solutions, and hospitality & entertainment.*

*We are passionate about what we do, and we pride ourselves on delivering high-quality products and services that create value for our clients.*

*Zambezi Cosmix is a mobile concrete mixer. It mixes and delivers concrete on-site, offering efficiency and flexibility for construction projects. Its mobility allows it to access various locations, making it useful for different types of construction work. It's equipped with a mixing drum that enables the preparation of concrete directly at the construction site, reducing logistical challenges.*

*Zambezi Scaffolding & Formworx: We are specialized in delivering premium scaffolding and formwork solutions. Our commitment to precision, safety, and reliability ensures construction projects rise to new levels of success.*

*Our head office is situated at Accuris Business Centre, 1<sup>st</sup> Floor, 51A RJT Building, 51 Rue du Savoir, Cybercity, Ebene, Republic of Mauritius*

We are currently looking for degree holders in Civil Engineering to be considered for this position.

### **Duties and Responsibilities:**

- **Safety measures:** Conduct site inspections to monitor construction progress and ensure adherence to safety and quality standards.
- **Quality Control:** Implementing quality control measures throughout the manufacturing process to maintain high product standards. To ensure the durability and performance of the products and services.
- **Technical Support:** Providing technical support regarding the operation, maintenance, and troubleshooting. Proposing solutions for continuous improvement.
- **Compliance:** Ensuring compliance with relevant safety regulations and standards in the design, manufacturing, and testing of products and services.
- **Customer requirements:** Assist the sales and marketing team in understanding customer requirements, providing technical insights, and contributing to the marketing and sale of products and services, including scheduling, budgeting, and resource allocation.

# ZAMBEZI GROUP

- **Research and Development:** Conducting research to identify emerging technologies and trends.
- **Customer Engagement:** Collaborating with customers to understand their needs and preferences, incorporating feedback into products and services.
- **Supply Chain Management:** Working closely with suppliers to ensure timely delivery of quality components and equipments.

## **Qualifications/Skills/Competencies:**

- Bachelor's degree in Civil Engineering degree which is recognised by the Council of Registered Professional Engineers of Mauritius
- Strong academic performance and a genuine passion for civil engineering and construction.
- Excellent communication and interpersonal skills.
- Ability to work collaboratively in a team environment.
- Proficiency in engineering software and tools is a plus. (e.g., AutoCAD, SolidWorks).
- Eagerness to learn and a proactive approach to problem-solving.
- Understanding of construction industry practices and standards.
- Commercial awareness, including an understanding of target user and market
- Ability to work under pressure

This role requires a combination of technical expertise, project management skills, and a strong understanding of construction principles and industry regulations.

Duration: Contractual & Full Time

Experience: Not compulsory but would be an advantage for this position

Remuneration: Negotiable (according to qualification and years of experience)

Working Days/ Time: Monday to Friday - 8am to 5pm (may be requested to work on weekends or public holidays depending on business needs).
