

Innodis Poultry Limited is hiring a Technical Officer (Maintenance)!

Innodis Poultry Limited is a leading company in the poultry sector in Mauritius, specializing in the production, processing, and distribution of high-quality poultry products. As a key player in the agri-food industry, we are committed to innovation, sustainability, and maintaining high standards in food production. Our operations span across hatcheries, farms, and processing plants, ensuring a fully integrated supply chain.

Location: Innodis Poultry Limited, **Beau Climat, La Flora**

Duties & Responsibilities:

- Ensure the proper maintenance and servicing of mechanical, electrical, and refrigeration systems.
- Diagnose and troubleshoot equipment failures, ensuring minimal downtime.
- Oversee preventive and corrective maintenance of poultry processing equipment.
- Work with and manage a team of technicians to improve system efficiency and reliability.
- Implement energy-saving and cost-effective maintenance strategies.
- Ensure compliance with safety and operational standards.

Qualifications & Requirements:

We are currently looking for **degree holders in Mechatronics Engineering**.

Job Details:

- **Duration:** Full-time
- **Experience:** Fresh graduates are encouraged to apply. Experience in an industrial or food processing environment will be an advantage.
- **Remuneration:** Competitive salary (to be discussed during the interview)

How to Apply:

Send your **CV & Motivation Letter** to: **j.paupiah@innodisgroup.com**

Deadline: 18th of April 2025
