

Access Technologies Ltd is hiring Junior Software Engineer / Intern!

About Us

Access Technologies is a growing startup focused on building modern, scalable software solutions. We design and develop digital products end-to-end, helping businesses restructure operations and improve efficiency through technology.

As a small and agile team, we move fast, collaborate closely, and give every team member the opportunity to make a real impact from day one.

Situated at: Ebene, Mauritius

Duration: Full time/ Part Time

Duties are as follows:

- Assist in building full-stack features across our backends (Node.js, Express, TypeScript, Zod) and frontends (Next.js, React, TypeScript, Tailwind CSS, Radix UI)
- Work with MongoDB / Mongoose and Redis inside multi-tenant architectures on a single platform serving many client companies, each with isolated data
- Support REST API development (documented via OpenAPI/Swagger), third-party integrations (authentication, file storage, transactional email) and background jobs
- Write and improve basic tests (Jest or similar)
- Learn and assist with deployments to Google Cloud Platform, and CI/CD via GitHub Actions
- Participate in team discussions, code reviews, and problem-solving
- Debug and improve features based on feedback
- Help maintain quality through automated checks: ESLint, Prettier, type-checks, and Sentry-based error tracking in production

We are currently looking for degree holders in:

1. BSc (Hons) Information Systems
2. BSc (Hons) Computer Science
3. BSc (Hons) Applied Computing
4. BSc (Hons) Software Engineering
5. Bachelor of Applied Science in Cyber Operations (with Emphasis in Defense/Forensics)
6. BSc (Hons) Data Science

Experience:

- Basic knowledge of programming (JavaScript/TypeScript preferred)
- Familiarity with React, Node.js, or similar technologies (even academic projects count)
- Basic knowledge of MongoDB (or any SQL database)
- Willingness to learn, adapt, and take initiative
- Good communication skills and a positive attitude
- Ability to work on-site in Ebene
